Project : ERP Product For AIT As Saas And Backend Design

Status : Reviewed (Freeze)

1. What Progress you have made in the Project ?

In our project, we had done so much work as the Project Report was available from 7th Semester. So according to that, we had done the basic level backend like created the data dictionary of our ERP system and continuing to make it better.

2. What challenge you have faced ?

While creating data dictionary, the crucial task was to set the size and type of each column in the particular table because if the raw details were correct for the one table, they were being conflicted to other tables while merging tables.

3. What support you need ?

Whenever we met with the above-listed difficulties we searched on google a lot of time and what we get the results were checked by our respected mentor Dr.Vyas Sir and his avid support always helped us.

4. Which literature you have referred ?

Now in coding part, the base was our old GTU and reference books but the main thing which helped us was GOOGLE in which we met to solve all of our doubts.
